FIFTEEN (15) YEAR LIMITED PRODUCT WARRANTY (TOPCon Module)

Subject to the exclusions contained below, United Energy Co., Ltd. ("United Energy") warrants to the original buyer (the "Buyer") that the modules shall be free from defects in materials and workmanship that have an effect on module functionality under normal application, installation, use and service conditions as specified in United Energy standard product documentation.

United Energy guarantees that the module will maintain the mechanical integrity and stability in accordance with approved operation methods described in our installation instructions; the glass of a module will maintain its integrity provided there are no indications of localized impacts or external forces; and that the cable and connector plug of a module will remain safe and operational provided modules are professionally installed. Any damages caused by abrasion, improper installation or animals are exempt from this warranty.

Claims under the warranty can only be accepted if the Buyer can provide proof that the malfunctioning or non-conformity of a module results exclusively from defects in materials and/or workmanship under normal application, installation, use and service conditions specified in United Energy standard product documentation. Any color change on module or any other changes on module appearance do not represent defects, insofar as the change in appearance does not stem from defects in material and/or workmanship, and does not cause degradation of functionality of the module. If the product fails to conform to this warranty, United Energy will, at its option, either repair or replace the product, or provide an appropriate residual market value of the product(s) as compensation.

THIRTY(30) YEAR LIMITED PERFORMANCE WARRANTY (TOPCon Module)

United Energy guarantees that for a period of thirty years the module will maintain a performance as set forth below:

For MONOFACIAL Module Products:

- * During the first year, United Energy guarantees the actual power output of the module will be no less than 99% of the labeled power output.
- * From year 2 to year 30, the actual annual power decline will be no more than 0.40 %; by the end of year 30, the actual power output will be no less than 87.4% of the labeled power output.

For BIFACIAL Module Products:

- * During the first year, United Energy guarantees the actual power output of the module will be no less than 99% of the labeled power output.
- * From year 2 to year 30, the actual annual power decline will be no more than 0.40 %; by the end of year 30, the actual power output will be no less than 87.4% of the labeled power output.

The actual power output of the module shall be determined for verification using Standard Testing Conditions only. The actual power output measurement is either carried out by a United Energy facility or by a United Energy recognized 3rd party testing institute. Testing equipment tolerances will be applied to all actual power output measurements.

In the event it is determined that there is a negative deviation of actual performance from the warranted values then United Energy, at its option, will compensate for such loss in power by either providing to the Buyer additional modules to make up the total wattage loss, or by repairing or replacing the modules or providing an appropriate residual market value of the product(s) as compensation.

WARRANTY EFFECTIVE DATE

The warranty effective date shall be defined as the date of installation or ninety (90) days after the delivery by United Energy, whichever date is earlier.

EXCEPTIONS

The limited warranties set forth herein do not apply to any module which has been subjected to negligence in transportation, handling, storage or use, or has been repaired, or in any way tampered with, or which has been subjected to extraordinary salt or chemical exposure, or which has been subjected to improper installation, application, alteration, unauthorized service, or which has been subjected to power failure surges, flood, fire, direct or indirect lightning strikes, or other acts of nature, or which has been subjected to accidental breakage, vandalism, explosions, acts of war, or other events outside United Energy control. Unless otherwise required by any mandatory applicable law, the limited warranties do not cover any transportation costs for return modules, or for reshipment of any repaired or replaced module, or any other cost associated with installation, removal or reinstallation of modules.

In addition, the limited warranties do not apply to any cosmetic change in appearance stemming from the normal wear and tear over time of product materials. Warranty claims will not apply if the product label, type or serial number of the applicable product has been altered, removed or made illegible.

CLAIM VERIFICATION AND REMEDIATION PROCESS

If the Buyer believes that it has a justified claim covered by the limited warranties set forth above, then the Buyer shall comply with the following return material authorization ("RMA") process. The Buyer must submit such claim in writing to United Energy within the applicable warranty period specified above to the following address, or such future address as United Energy may provide from time to time:

P.R.CHINA

United Energy Co., Ltd.

Tel: +86 189 0569 0996

Email: info@ue-pv.com

Add: No. 398 Ganquan Road, Hefei, Anhui, China.

Such notice should enclose evidence of the date of delivery of the applicable product and the basis for the Buyer's claim.

Warranty claims may only be made by the original buyer or a person to whom the title to the applicable module(s) has been transferred, provided that the modules remain in their original location and configuration.

Upon receipt of such written claim, United Energy may seek further verification of the Buyer's claim of a breach of one of the foregoing limited warranties. Except as otherwise set forth above, the Buyer will return the allegedly-defective products to United Energy in accordance with written RMA authorization and return packaging and shipping instructions from United Energy. The return of any product will not be accepted by United Energy unless prior written authorization has been given by United Energy and the Buyer has complied with the packaging and shipping instructions provided by United Energy.

If United Energy verifies in its reasonable judgment that a module does not comply with the limited warranties set forth above, then United Energy, at its option, will either repair the affected module and return it to the Buyer, provide a new or refurbished replacement module shipped to the Buyer at the Buyer's expense, or provide an appropriate residual market value of the reduced performance of product(s) as compensation. Any repair or replacement of an affected module shall not increase the applicable warranty period. United Energy reserves the right to deliver a similar module (of similar size, color, shape, and/or power output) in replacement of the returned module should the production of the returned model be discontinued or otherwise unavailable. Ownership of all modules which have been replaced is passed to United Energy.

EXCEPT AS OTHERWISE PROVIDED BY APPLICABLE LAW, THE FOREGOING REMEDIES STATE UNITED ENERGY SOLE AND EXCLUSIVE OBLIGATION AND THE BUYER'S SOLE AND EXCLUSIVE REMEDY FOR A BREACH OF THE FOREGOING LIMITED WARRANTY.

NOT INDEPENDENT WARRANTIES

The Buyer has the right to pursue claims under each of the warranties set forth above; provided that if claims arise under multiple limited warranties from a single incident, then if United Energy remedies such incidents as set forth above, United Energy shall be deemed to have resolved all applicable warranty claims arising from such an incident.

DISCLAIMERS

The limited warranties set forth herein are in lieu of and exclude all other express or implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose or application, and all other obligations on the part of United Energy unless such other warranties and obligations are agreed to in writing by United Energy. Some jurisdictions limit or do not permit disclaimers of warranty, so this provision may not apply to the buyer.

LIMITATION OF LIABILITY

To the maximum extent permitted by applicable law, United Energy hereby disclaims, and shall have no responsibility or liability whatsoever for, damage or injury to persons or property or for other loss or injury resulting from any cause whatsoever arising out of or related to any of its products or their use. To the maximum extent permitted by applicable law, under no circumstances shall United Energy be liable. To the buyer, or to any third party claiming through or under the buyer, for any lost profits, loss of use, or equipment downtime, or for any incidental, consequential or special damages of any kind, howsoever arising, related to the products, even if United Energy has been advised of the possibility of such damages.

To the maximum extent permitted by applicable law, United Energy aggregate liability, if any, in damages or otherwise, shall not exceed the purchase price paid to United Energy by the buyer for the product in the case of a warranty claim.

The buyer acknowledges that the foregoing limitations on liability are an essential element of the agreement between the parties and that in the absence of such limitations the purchase price of the products would be substantially different. Some jurisdictions limit or do not permit disclaimers of liability, so this provision may not apply to the buyer. Some jurisdictions do not allow limitations on the exclusion of damages so the above limitations or exclusions may not apply to the buyer.

You may have specific legal rights outside this warranty, and you may also have other rights that vary from state to state or country to country. This limited warranty does not affect any additional rights you have under laws in your jurisdiction governing the sale of consumer goods. Some states or countries do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in this limited warranty statement may not apply.

Note

In the event of any inconsistency among different language versions of this warranty statement, the English version shall prevail. For modules covered by United Energy warranty, please refer to our product lists published on our website at: www.unitedpvsolar.com as such list is updated from time to time.

The installation and handling of pv modules requires professional skills and should only be performed by qualified professionals. Please read the safety and installation instructions before using the modules.
